Elekonich Competes For Miss Michigan Title

The Grayling Regional Chamber of Commerce is inviting the business community to a reception in honor of Dawn Elekonich to congratulate her on her graduation and wish her well while she competes for the Miss Michigan Title. The reception will be held at the new Copper Kettle, at 1:00-3:00 p.m. on June 10.

The Miss Michigan Pageant takes place June 15-17 in Muskegon. If anyone is interested in attending, tickets are still available for the Thursday and Friday performances in the Fruenthal Theatre.

Saturday's performance will be the top 10 out of 38 women performing their talent, gown and swimsuit segments again. Tickets for closed circuit TV in an adjacent lounge are still available for Saturday.

Coast Guard Helicopter Finds Lost 3-Year-Old

Crawford County Deputies, a State Police K-9 unit, a Coast Guard helicopter, DNR officers, a DNR spotter plane, and more than 100 volunteers searched for about five hours last Saturday, May 27, before 3 year old Raymond Cline was found sitting in the middle of a swamp.

The Crawford County Sheriff's Dept. received a report at approximately 4:30 p.m. of a lost child from a cabin on Stephan Bridge Road. After a preliminary search of the area, deputies alerted the support agencies.

Just before nightfall, the child was spotted by the Coast Guard helicopter crew, and they were able to direct searchers to the boy. He was found in a swampy area about 1/2 mile from the cabin. Raymond was taken to Mercy Hospital by ambulance, and was treated for minor injuries.

The Crawford County Sheriff's Dept. said without the aid of everyone involved the child may not have been found before he suffered severe hypothermia, due to the rapidly dropping temperature.

Free Visits Sunday At Hartwick Pines, N. Higgins Lake Park

Hartwick Pines and North Higgins Lake State Parks, two of the most beautiful parks in the state, will hold Open Houses Sunday, June 4th. As part of a statewide celebration, entry into the state parks will be free that day.

The popular Roscommon High School Jazz Band is scheduled to play at the beach at North Higgins Lake from 12 noon to 1 p.m. Sunday. Other activities such as Junior Ranger outdoor activities, and a visit from Smokey the Bear are planned for N. Higgins Lake.

Both Hartwick Pines and N. Higgins Lake are located entirely within Crawford County.

Georgia-Pacific Waits For Abatement, Permit Decisions

Georgia-Pacific has taken its expansion proposal to the people of Crawford and Roscommon Counties, and is now waiting to hear how the proposal will be accepted, through its tax abatement request and the DNR permitting approval.

Joseph Newman, manager of the Georgia-Pacific Beaver Creek resin plant, said that he presented Georgia-Pacific's expansion plans to the Roscommon Business Assoc. and the Grayling Promotional Assoc. last Tuesday, May 23, bringing to a conclusion his tour of governmental, service and business organizations.

"We're on hold," Newman said,

"while we wait for a decision on our tax abatement request, and a decision on our air quality permit."

The DNR has not set a date for the public hearing on Georgia-Pacific's air permit, said Newman, but he anticipates a final decision on the permit application by August or September.

Newman said that Georgia-Pacific will not be taking legal action to force a decision from the Beaver Creek Township Board regarding the abatement issue. Beaver Creek has exceeded the time allowed by the state in the abatement application procedure. Newman said Georgia-Pacific at-

orneys conferred with legal counsel from the State of Michigan, and decided not to press for an immediate decision.

Meanwhile the Beaver Creek Township Board is working with its attorney, Doug Dosson, reviewing the request for an environmental impact statement submitted by Linda Caswell at the May 11th abatement hearings.

Caswell, president of AuSable Conservation Trust (ACT), requested an environmental impact statement be compiled before Beaver Creek Township made a decision whether to grant Georgia-Pacific a tax abatement.

Terry McGregor, township treasurer, said that Dosson has been in contact with the attorney for ACT.

McGregor said if the township board receives all the information from the attorney regarding the EIS and the different taxing units respond stating their positions, a special meeting to decide the abatement issue will be held before the next scheduled board meeting.

An environmental assessment statement, commissioned by Georgia-Pacific, was sent to the printers on May 25th, and Newman said it would be made available to the public as soon as the printing was completed.

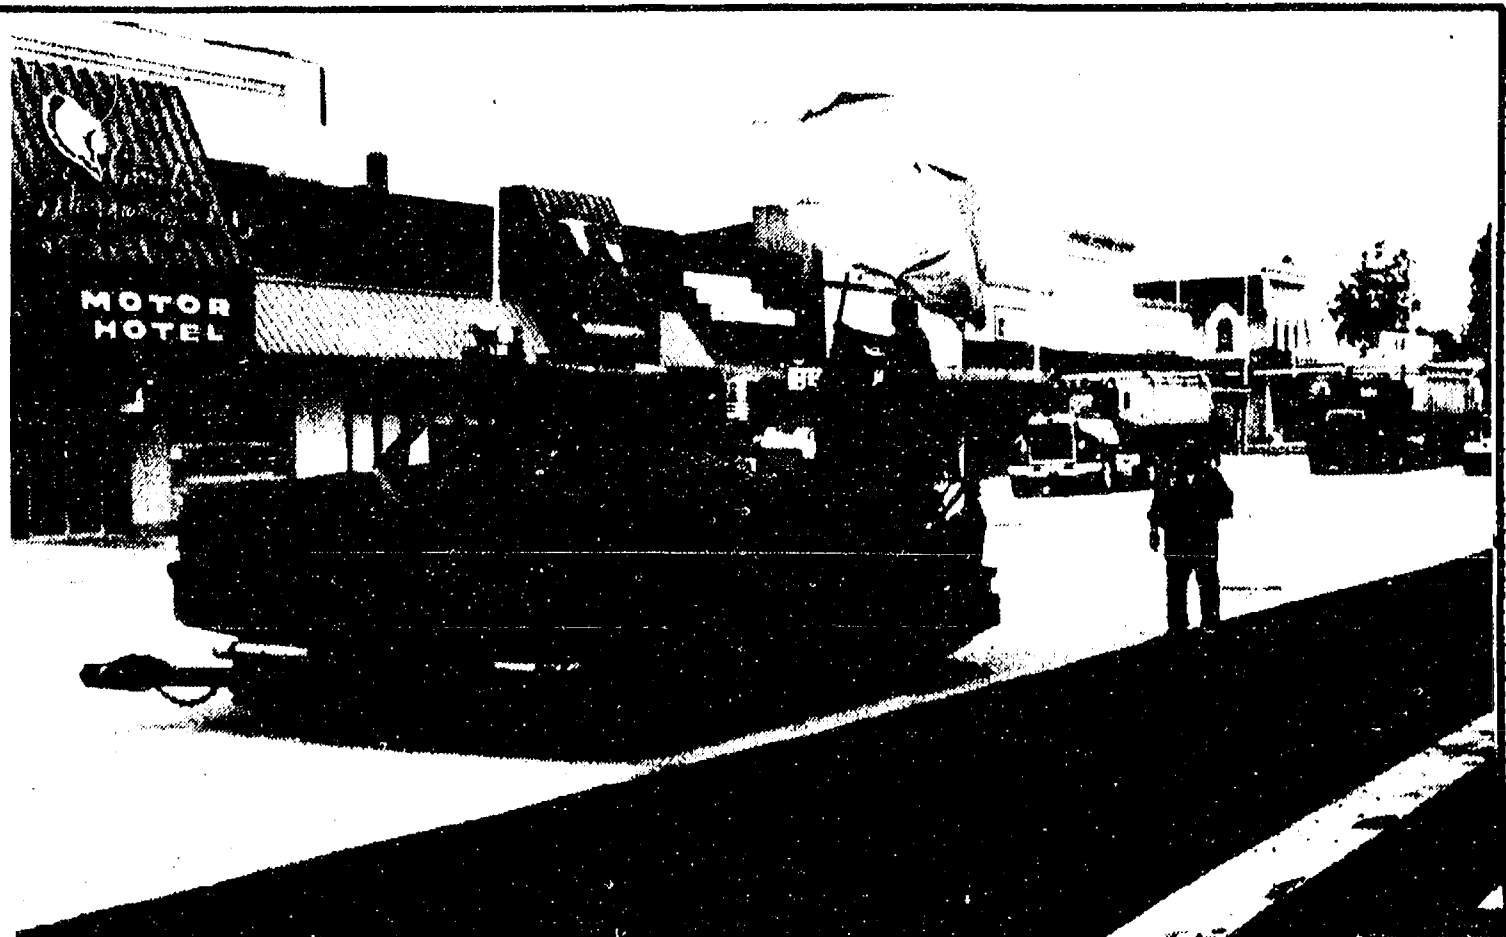

City Paving Project Nearing Completion

Mother nature, in the form of a bolt of lightning, has delayed completion of the city road construction project.

Last Wednesday afternoon lightning struck Corvette Contractors' blacktop plant, damaging computers and machinery, and halting the laying of the final course of blacktop. Jerry Morford, City Manager, said repairs to the plant should not take long, and the paving should be completed by the end of this week.

Morford said the sidewalk portion of the project is about two weeks ahead of schedule. The brick to complete the walks should be here around June 1st, and it will be laid shortly thereafter.

Before the brick is laid, Morford said two conduit lines will be buried beneath the brick rows. One conduit line will be for future underground electrical lines, and the second line will contain an underground water system to supply water for the flowers, shrubs, or trees to be planted in the area.

CONSTRUCTION NEARLY COMPLETED — Downtown merchants, customers, and city officials all smile, as the downtown area returns to "business as usual."

Grayling's 'Mr. Music' To Lead Milltown Parade

Dennis Ormsbee, Crawford AuSable School District's Band Director, has been selected by the Grayling Promotional Association, as the Grand Marshall of the 1989 Milltown Parade. Grayling's own "Mr. Music" was chosen, explained GPA member Betty Bennett, because he "has done so much and taken the music so far in such a short time that he deserved to be honored that way."

Dennis, a northern Michigan native, attended Inland Lakes High School, where he played trumpet from grades 5 through 12. Upon graduation, he studied engineering at North Central Michigan College in Petoskey. After two years, he changed his major to instrumental music and completed his studies at Northern Michigan University in Marquette.

His first job was for Atlanta Community Schools, where he worked as the 3rd-12th grade band director for 13 years. In 1985, Dennis came to the Crawford AuSable School District in Grayling, where he teaches instrumental music. He instructs two 5th grade bands, one 6th grade band, the combined 7th-8th grade band and the high school band.

He says that in the past four years, the bands have grown and matured into groups that are competitive with any area bands of

our school's classification. Dennis, who was recently recognized as one of the CASD's 1989 Teachers of the Year, is of course the driving force behind the bands' improvement over the last four years.

He takes both the middle and high school bands to the Michigan School Band and Orchestra Association's annual events, including solo/ensemble, band festival and jazz festival. The Grayling Middle School band earned a I (superior) rating at District Festival for the third time and another I at State Festival for the second time.

The High School band scored a I rating at District Festival, entitling them to perform in the State Festival — where they scored a II — for the first time ever. The jazz ensemble also earned a II in its first showing at Regional Festival.

Last summer, Dennis initiated a Master's Workshop for both middle and high school band members. Four professional musicians offered five half-day clinics in the areas of brass, woodwind and percussion. He also gives private lessons each summer.

Active in the MSBOA, Dennis served for four years as First Vice-President, the person in charge of hiring adjudicators for competitions. He now serves on the State Festivals

Improvements Committee.

Dennis and his wife Brenda, whom he met when they were students at NCMC, started the Grayling Band Boosters, which has been a constant source of support to the band over the years. He credits Brenda for being very understanding and supportive.

The Ormsbees are the parents of Chad, 15; Trisha, 11; and Tim, 7. The two older Ormsbee children are members of their father's bands. Chad plays tuba and trombone, while Trisha plays bassoon.

Dennis believes that the community has been instrumental in the bands' quick development. He says that Grayling was "eager and thirsty for a good band program." Because of the interest and support, his bands are ahead of his original goal schedule. "It took seven years in Atlanta to build up a top-rated band. We're well on our way in four."

The GHS High School band will march in this summer's Milltown Parade, which will carry the theme of "The Sound of Music." For this one parade, however, their director won't be marching alongside them as usual. For Milltown, 1989, Dennis Ormsbee will be sitting in a convertible, leading the entire affair, in his role as Grayling's "Mr. Music."

River House Shelter Board Adds Seven New Members

Seven new community representatives from the four-county area served by the River House Shelter were introduced as new advisory board members during a recent meeting.

The River House Advisory Board is comprised of individuals from Crawford, Roscommon, Oscoda and Ogemaw counties. Board members are selected on the basis of their job affiliation, the experience they bring to the board and their community involvement.

New board members included Carla Nolph, Social Worker at Mercy Hospital/Grayling and Ilene Geiss-Wilson, Manager of McDonald's in Kalkaska and long-time Shelter volunteer.

"The purpose of the River House Shelter Advisory Board is to ensure that the program is properly maintained as set forth by the Divisional Board of Mercy Health Services North," said Ms. Little. "Compliance with grants that fund River House, financial accounting, program development needs and fund raising are all discussed by the board during their monthly meetings."

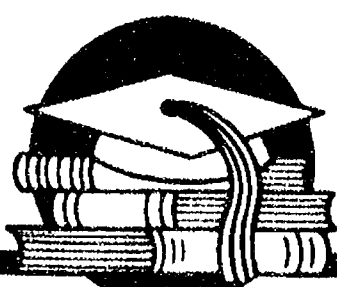

River House Shelter employs 10 persons and has an annual operating budget of \$124,000. Funding sources include a \$75,000 grant from the Michigan DSS Domestic Violence Prevention and Treatment Board; a \$19,800 grant from the Victims of Crime Act; and \$7,700

from the local Federal Emergency Man Act Boards. In addition, the Michigan State Emergency Needs Provision monies are paid to the Shelter for housing victims during their stay in the Shelter. United Way of Crawford County and Ogemaw County also contribute to River House funding. Many private donations and in-kind goods and services from the service communities complete the River House budget.

From October 1988 through March 1989, River House staff and volunteers have answered 461 calls on the Crisis Line and Information and Referral Line. For more information about River House Shelter, call the business line today at 348-3169.

MEMORIAL DAY — Representatives from both VFW posts, the American Legion, and the Camp Grayling Color Guard and Firing Squad met at the Elmwood Cemetery on Monday, May 29, and reminded Crawford County residents of the tremendous price freedom carries.

Fire Ruins Trailer

A fire in the Flora and Fauna Subdivision on M-72 East last Sunday, May 28, burned six acres destroying a 20 ft. travel trailer, and burned the area around a house, causing no structural damage.

The fire spread from an unattended campfire on private property. The owner of the property was cited for leaving a fire unattended by a Conservation officer.

DNR fire officer, Duane Brooks, said the spring "green-up" is now complete, and with Monday night's rainfall, he believes the worst of the fire season is over.

Opinions

Let's Talk About It

By Joe Murphy

I wish to extend my heartiest congratulations to the Class of Eighty-nine. You have reached an important milestone in your lives. Your graduation from High School lays a solid foundation on which to build your lives. Many of you are planning to continue your education, which I think is very laudable. We will need your well-trained minds to lead us in the Twenty-first Century. When you think of all the changes that have taken place during our life-time, we can only dream of the changes to come. The unrest now taking place in Communist countries signals the end of oppressive governments everywhere. Once people are given a small taste of freedom they will continue to fight until they have complete human rights. Perhaps, in the lifetime of our Graduates, they will be able to travel from country to country with no more fuss than a visit to another town. I am hopeful that the Twenty-first Century will be a time of peace and prosperity beyond any in man's history. So, prepare well those bright young minds to lead this nation and all mankind into the future.

I think those three blocks up-town, will be a great thing for our little city. They will add much beauty to our already wonderful

town. We can be very proud of our hometown. I have yet to see a city, of our size, as neat and clean as Grayling. Most folks help by keeping their property in nice shape. There is no excuse for letting trash build up, with the fine trash pick-up service, we have. We can make Grayling the show place of the north, a place, anyone would be happy to call home.

I looked up the definition of the words, politician and statesman, in the dictionary, the other day. A politician is one engaged in party politics as a profession. A statesman is one, who exercises political leadership wisely without narrow partisanship. It is easy to see why we call our elected officials, politicians, maybe we should try some statesmen for a change. It seems once a man is elected to public office, he becomes more interested in doing the politically wise thing than in doing the right thing. I would like to see some changes in our political system, one would be, to elect our senators and congressmen to serve one six-year term period. Maybe that would get rid of some of those power brokers, that have served since day one. Let them come back out of government and try to earn a living under the laws they have passed.

Almanack

Panama teaches a lesson

IT'S NOT RIGHT or proper to think of the nations of Central America as "banana republics," with all the derogatory images such a name brings to mind.

But with the way business is conducted in some of them, it's tough not to.

The Panama election is one of the latest examples. Apparently the existing regime came out as losers, so what do its leaders do? They ignore the results, beat up their opponents, and maintain themselves in power.

If it weren't so serious, the Panama election would be fit subject for literary farce. Of course, it is way too serious for that sort of treatment. Panama is a strategic key to the entire Western Hemisphere, and the people affected are real people, who bleed real blood and die real deaths.

WHAT'S THE ANSWER in Panama and Central America?

Chances are there is more than one answer, and it will take a Solomon-like presence to come up with any of them.

Panama does teach a vital lesson to citizens of this country, however.

Panama teaches us that what we have achieved in our nation in the way of conduct of elections, and peaceful transfer of power when one administration ends and another begins - even with opposing political factions involved - is precious indeed, and should be revered and safeguarded at all costs.

Could a Panama-style election happen here?

It's not likely, considering our history and our temperament as a nation.

But under certain circumstances, it's always possible.

TAX FREEDOM DAY - Maybe there should be a movement started to declare May 4 as a national holiday.

That was "Tax Freedom Day" this year. The non-partisan Tax Foundation down in Washington figures that the average American this year had to work 124 days or until May 4 just to pay federal, state and local taxes. After 124 days working for governments, the average American started working for himself/herself. All taxes were paid.

That should be cause enough for a holiday to celebrate.

It has never taken longer than 124 days to earn enough to pay all your taxes; it took 124 days last year and in 1987, too.

The Tax Foundation's calculations are based on the assumption that all taxes - including business taxes - ultimately are paid by individuals. That's a pretty valid assumption.

So let's hear either a cheer or a sigh of relief. Since May 4, we have been working for ourselves.

MEDIA CRITICISM - Members of the press are criticised from time to time for lack of objectivity. Sometimes the claim is justified. And sometimes people in the press invite such criticism.

Note the comment earlier this year by Free Press columnist Robin Ascarian, discussing the inauguration of the George Bush administration:

"My pledge for the next four years is to make as much fun of Barbara and George and Dan and Marilyn as I did of Nancy and Ron. A cynical way to look at the world's biggest shots, perhaps, but yes, thanks, I am up to the task."

Was such a comment made in jest? Perhaps. Was it simply a lame attempt at columnar cuteness? Perhaps. But unfortunately, the mean-spiritedness the comment suggests frequently is supported by what appears in print.

This is just one more reason why the media lack credibility with a growing number of readers, listeners and viewers.

But then, perhaps such media viewpoint can be better understood when it is realized reporters frequently must deal with such public personalities as Pedro Guerrero, eminent third baseman for the St. Louis Cardinals.

Mr. Guerrero, in explaining to a television reporter why he doesn't get along too well with the print media, commented: "Sometimes writers print what I say, not what I mean."

Yes, that can be a problem in dealing with the press, Mr. Guerrero. Politicians sometimes note the same problem.

And if a reporter doesn't watch it, severe journalistic cynicism can result.

Letters to the Editor

Our Children Deserve Clean Air in County

Georgia-Pacific would like us to believe that formaldehyde is so essential to our daily lives that we should want a "fix" of it everyday in everyday in order to live happy fulfilled lives.

If formaldehyde is so safe and not a health hazard in any way, then why did I receive a letter from the Mich. Dept. of Health on state stationery with our Governor's name at the top mentioning

concerns about formaldehyde? A quote from that article: "Human exposure to formaldehyde in the air presents a potential for health problems. Some people develop acute (short-term) health effects from exposure to the gas."

Another quote from the "preamble" of the Occupational Safety and Health Administration: "Long term inhalation of formaldehyde gas is

associated with nasal cancer in experimental animals. Some studies in humans exposed to formaldehyde have demonstrated increased nasal and nasopharyngeal cancer, thus formaldehyde should be regarded as an occupational carcinogen."

Another quote from the Environmental Protection Agency this year: E.P.A. officials said the chemical companies were by far the largest sources of

toxin pollution. And a final quote from an article in the Lansing Journal: Already Fanny Mae is preparing a buyer's guide on home hazards. To be published later this year, the brochure will describe the dangers of such toxins as radon, lead, asbestos, formaldehyde, and other pollutants.

Don't let Georgia-Pacific fool you, formaldehyde is a very controversial chemical and we must realize it!

We simply can't afford to cope with any more toxins in Crawford County, and Georgia-Pacific asking us to live with 10 times higher emissions than they are currently emitting!

It's not safe, it's not right, and we have to stop the expansion. Our children deserve clean air.

Taxpayer Asks What He Is Receiving For Money

Gather around y'all for a good laugh!

It seems that the powerful people in Grayling are the women in the Sheriff's office and in the Secretary of State's office.

Listen carefully now, Women's Libs', etc.

It so happens that this week I decided to tow a junk car from Grayling to Charlevoix. As a very pious citizen I first called the Sheriff's office and talked to the young lady who answered the phone. I said, "I'm planning to tow an automobile with my pickup truck from Grayling to Charlevoix, what do I have to do to be legal?"

She said, "you can get a Temporary certificate from the Secretary of State's office, which also required the necessary insurance."

I said, "I thought that that is not necessary."

She said, "I'll check out this and call you back."

Shortly after, she phoned back and confirmed the same.

Then I telephoned

the Secretary of State's office. Again I spoke to a young lady. I said, "I just got through talking to the Sheriff's office and was told I needed a temporary certificate to tow a car from Grayling to Charlevoix."

She said, "I don't think that is necessary."

I said, "I don't think so, either, however what is the cost of a temporary certificate?"

She said, "\$5.00."

I said, "Thank you."

Then my wife telephoned Cornell Insurance and made arrangements for temporary insurance and was told it will be covered."

Then I went to the Secretary of State's office ready to buy the temporary certificate and again was waited on by a lady.

I handed her the Cornell telephone number on a card and said, "You may call this number for authorization that the insurance is covered."

She said, "we can't do that."

By now I am getting

really fed up. I slammed down a \$5 bill and said, "Now will you make the local call?"

She said, "Well, if you are towing you don't need the temporary."

I said, "If I get stopped by the police what law can I quote that I am legal?"

She said (something like), "There isn't any."

I left in a huff but only after saying, "Thank you very much."

Maybe y'all think that this is Poor Humor. But hear this, the Sheriff's Office and

the Secretary of State's office are side by side. Stupid me!! But why don't these two women think to call each other to come to some unified conclusion as to "Does a car being towed require to be driveable and currently licensed," OR NOT??

As a taxpayer, I say, "What am I getting for my tax dollars?"

Oh yes, another dimension; even though I have put several hundred hours labor on restoring this junk car the township supervisor sent me a

(friendly???) notice to

get rid of the car for compliance with Grayling Township Ordinance #84-4.

Hurray! Now I am legal as a good law abiding citizen for #84-4.

Also, I am sure that the other organizations at which I am wondering what they do for a living will no doubt be very offended at this epistle and also I expect them to retaliate. Why not, they have the power, I am only a peon who fought and won WW2 for the U.S.A.

It's not easy being a Pistons fan but somebody has to do it. It's good to know Crawford County has a couple hundred good men and women willing to shoulder that burden and responsibility.

The trouble is that we're just not getting respect for all of our hard work. Do you know how many hours we've spent this season listening on the radio or watching the Pistons on television? (Just ask the spouse of a Pistons fan, he or she will know.)

It's been tough for us Pistons fans dealing with the frustration of work not getting done around the house because we're watching the Bad Boys again. But we're learning how to handle that frustration fairly well as the season enters its 9th month on June 1st.

It's been a tough year for us fans. When the season started we had to ignore snow that needed to be shoveled and wood that needed to be hauled. Now we have to put off mowing the lawn or painting the house. It's tough on us putting this work off because we really want to do it. It's just that the Pistons are playing today.

Even when we settle in to watch a game, we can't relax. The season is so long our game routines change all the time. Before in November we needed hot cheese dips or nachos to snack on. Now we run for cool drinks and more ice. These adjustments are tough but we're becoming experienced -- just call us hardened veterans.

Pistons fans in Crawford County have to center their games around the TV. Very few of us have been lucky enough to acquire any tickets at all for the sold-out Palace, let alone good seats. So for many of the games, any home here with a satellite turns into "The Palace."

Nothing is tougher for us Pistons fans than the last-minute scramble for a satellite station after you've settled comfortably into your chair expecting CBS to broadcast a game and you hear "Tiger baseball on the air!" Thanks Cadillac for all of the Pistons play-off games you've knocked off the air. Cadillac really took the cake last year knocking off first round Piston play-off action for Tiger pre-season baseball. Pre-season baseball!

What Pistons fans need is support and sympathy. When someone puts a bowl of popcorn over his head because Chicago stole game 1, a good response is not "Well, LA's gonna sweep whoever wins anyway."

Most Pistons fans like to be in agony it seems like. Notice how often they like to remember Bird stealing a pass in game 5 two years ago. Notice how often they bring up Jabbar's 2 free throws in game 6 last year. To help Pistons fans, just leave them alone. They'll come around eventually. Why this Chicago series has us all feeling right at ease again. The loud outbursts after Chicago came back from 14 points down in game 3 means Pistons fans are just getting into the groove again. Don't worry about us. We enjoy this. Can't you see the smiles on our faces? When Pistons fans bang their heads and fists on walls, they're only doing it because they're enjoying themselves. They're having some much fun, it's hard for them to express themselves in other ways.

Actually, the toughest thing for a Pistons fan is to watch a game with other Pistons fans. Wherever you go it seems as if Pistons fans have their preferences that make for lively debates.

The biggest arguments usually center around Buffalo Bill Laimbeer. Some like him, some don't. But answer this, wouldn't you hate the guy if he played for someone else?

Other topics are the Aguirre -- A.D. trade, playing time for Rodman, Sally, Mahorn, and Edwards, and will Fennis Dembo play? Geez, Pistons fans usually can't even agree what station to watch the game -- TBS with Rick Barry, CBS with Hubie or Brent WhatshisName, or channel 50 with hometown boy George Blaha.

With Monday's sweet victory (how can anyone call it ugly?) Crawford County Pistons fans have to tough it out for at least two more games. I hope there will be at least six more games this year even though that means spending more time in front of the TV for us fans and more frustration at having to miss doing work around the house. It's a big sacrifice, but we're up to it.

...about your Social Security

People who work extra jobs to make ends meet should be aware that the additional earnings can make even more of a difference in the Social Security benefit payable on their record at retirement, or if they become disabled or die at a younger age. In general, the higher the earnings, the higher the benefits payable.

In most jobs, Social Security taxes are automatically deducted from wages by the employer. But special rules apply for reporting earnings from self-employment, farm work, household work, and jobs in which tips are involved, such as waiting on tables, taxi driving, and other service jobs.

Self-employed persons report their earnings on their tax return, and receive credit for Social Security if their net self-employment earnings are at least \$400. The tax due is paid to the Internal Revenue Service (IRS).

Workers who receive tips are responsible for reporting the tips to their employers, and paying the Social Security tax on them. This should be done by the 10th of the month following the month in which the tips were received. The employers match the taxes and report the tips, along with the rest of the wages, to IRS.

An employer must pay Social Security taxes on a household worker's wages if he or she pays the worker at least \$50 in a calendar quarter. These taxes and a quarterly report of wages is sent to the IRS by the employer. A W-2 is issued at the end of the year, and a copy is sent to the Social Security Administration.

Farm workers' wages are reported by the farmer or a crew chief, whichever is the employer. These wages are covered if the worker is paid at least \$150 during the year by the employer. Also, workers who work for an employer who spends \$2,500 or more a year for agricultural labor get Social Security credit for their cash wages, regardless of how much they earn or how many days they worked.

An exception applies to workers who live at home and commute to

work daily during harvest season to pick fruit or vegetables by hand. If work is paid on a piece rate basis, it is only covered by Social Security if the worker is paid at least \$150 in cash.

For more information on jobs and work covered by Social Security, and reporting the wages, contact the Social Security office in Traverse City at (616) 946-8360. Or, call toll-free at 800-234-SSA. A representative is at the County Building in Grayling on the first and third Tuesday of each month, 10:30-2:00. There is no phone service at this location.

Anderson Earns Scout Arrow of Light Award

Graduation ceremony for Pack #3993 took place at the city park, May 15th. Cub Scouts in all five dens received their awards and graduated.

Steve Anderson was awarded the Arrow of Light award. This is the highest award a boy can earn in Cub Scouts. Steve "crossed the bridge" and was welcomed by Boy Scout Troop #979 in the graduation ceremony.

Josh Schoen, representing Grayling's Pack 3993, placed third in the District Pine-wood Derby at West Branch. Josh brought home a well-deserved trophy for his run.

Coming Cub Scout events: June 9 and 10-Coffee and Doughnuts, 1-75 Fundraiser and July 4- Fourth of July Parade.

BIRD HOUSES -- Cub Scout's Den No. 2, and residents of Grayling Health Care Center, took time to build bird houses for their feathered friends. Cub Scout Dad, Larry Lingle, cut the houses out of wood donated by Weyerhaeuser.

82 Attend Hobby Club Mother-Daughter Banquet

The 82 people that attended the Frederic Hobby Club Mother and Daughter Banquet were welcomed by Hobby Club President Merna Newberry. The Blessing of the Food was given by Mamie Strahley.

Annabelle Armstrong opened the program leading the singing of A Song to Mothers. The speaker

of the evening was Elvira Jasmin. Esther Weaver and Margaret Gugin sang the beautiful song In The Garden. The Toast to the Mothers was given by Annabelle Armstrong and the Toast to the Daughters was given by Grace Germain. Margaret Gugin read us the poem Grandma Dear Old Grandma. A piano solo of Through The Gates of Yesterday was played by Merna Newberry. This song was written by the late Ruby Hopkins of Frederic, Mother of Esther Weaver. Ruby also wrote the poems Grandma Dear Old Grandma and That Dear Mother of Mine that we used in our program.

Vi Middleton read the poem Mother's Day that was written by the late Henry Gillman of Waters, who was well known for his poetry.

Prizes were given to the following: Mamie Strahley for being the oldest Mother with a daughter present. Peggy Robinson, Bon-

nie Poll and Norma Beck were the Mothers with the most daughters present. Mothers with the most generations present were Lillian Clough and Peggy Robinson. The Mother with daughters present that came the farthest was Norma Beck of Flint. The youngest Mother with a daughter present was Sarah Lantz and the youngest daughter present was Toni Lantz. The daughter that came the farthest was Debbie Jankowsky from San Jose, California. The door prize was won by Esther Weaver. We closed the program with everyone singing America The Beautiful.

On Monday, May 22nd eleven club members met to finalize our plans for our C.A.R.E. Program for the Memorial weekend. Winners of the door prizes were Jeanne Pearce and Betty Lepper. Our next meeting will be June 12th, at 7:30 p.m. at the club-house.

Obituaries

Flora Vanden Berg
Mrs. Flora P. Vanden Berg, 76, died Wednesday in Otsego Memorial Hospital, Gaylord. She was born October 25, 1912 in Benden, Michigan, the daughter of Sara and William E. Widrig Sr. Mrs. Vanden Berg is a graduate of Gaylord High School and St. Joseph Mercy Hospital School of Nursing in Ann Arbor. During 1945 she married Searles Vanden Berg in Gaylord. After their marriage, the Vanden Bergs moved to Grayling where they were the owner/operator of Vans Bait Shop. After the death of Searles during 1980, Flora moved back to Gaylord.

Funeral services for Mrs. Flora Vanden Berg will be on Saturday, May 27, at 11 a.m. from the Nelson Funeral Home. Interment will be in Fairview Cemetery in Gaylord.

Mrs. Vanden Berg is survived by her sister Helen Jensen of Gaylord, and many nieces and nephews.

Visitation will be at the Nelson Funeral Home on Friday from 3 until 9 p.m. and on Saturday from 9 a.m. until time of services. Memorial contributions in honor of Mrs. Flora P. Vanden Berg

may be made to the RLDS Church through the Nelson Funeral Home.

Beatrice L. Markley
Mrs. Beatrice L. Markley, a summer resident of the Grayling area, passed away Saturday, May 27, at Gratiot Community Hospital of Alma at age 76. Mrs. Markley was born August 15, 1912, in Ecorse, Michigan, to Joseph and Mary (Schinke) Scott.

She was married to Joseph Markley on September 13, 1934. She was a member of the Sacred Heart Catholic Church of Merrill.

Surviving are her husband, Joseph Markley; two sons, Joseph Markley of Ithaca; Russell Markley of Wheeler; 9 grandchildren; 7 great-grandchildren; 1 brother, Russell Scott of Riverdale; and 1 sister, Geraldine Grosfield of Oxnard, California.

Funeral services will take place Wednesday, May 31, at 3 p.m. at Sacred Heart Catholic Church, Merrill, Michigan, with Rev. Father John Thome officiating. Burial will be at Ridgeland Cemetery in Breckenridge. Friends may call at the Whiting Funeral Chapel in Breckenridge.

GPA Pledges To Chamber Fund Drive

President Gerry VanSickle presided at the regular meeting of the Grayling Promotional Association held at the Chief Shoppennagon Hotel on Tuesday, May 23.

Joe Newman from Georgia-Pacific was the guest speaker at the noon luncheon. He showed a video explaining the proposed formaldehyde expansion at their Beaver Creek plant and then answered questions from the group.

The Sidewalk and Street celebration sponsored by the CSIP will be held on Saturday, June 17.

A new printing of GPA cookbooks has been done and they are available now from many businesses and also from Gerry VanSickle or Sherry Hanson at the Grayling State Bank.

The group voted a three-year pledge of \$500 to the Chamber of Commerce Fund Drive.

2-1 Loss Knocks Vikings Out of Baseball Districts

Lincoln-Alcona knocked Grayling out of state tournament play Friday, May 26, with a 2-1 win.

John Jurkovich scored Grayling's only run in the third inning. He walked and Joel Mack drove him in with a single after Chris Skidmore bunted Jurkovich to second.

Max Prosser and Mack singled to start off the sixth inning but

three Vikings struck out. Grayling had 14 strikeouts.

Jim Abney pitched well in the loss, giving up only four hits and one walk while striking out 6.

The Viking batters fared better May 23 against Charlevoix at home. In the first game, Grayling exploded for 12 runs.

Prosser had 4 hits, Brian Palmer had 3,

including a home run. Skidmore had 2, Mack 2, and Austin 1.

Abney got the win in the exciting 12-10 win. Skidmore earned a save.

In the second game Grayling lost 7-2. Abney led the team with 2 hits.

The Vikings wind up the season with Vanderbilt at home Wednesday, May 31.

Bits of Talk

Airman 1st class Ron Bancroft of Hurlburt Field, Florida, spent from May 10 to May 20 in Grayling visiting his mother, Virginia Bancroft, and his grandmother, Martha Bancroft. He also attended the Grayling High School Prom held at the Holiday Inn on Saturday, May 13.

Phyllis Baynes of Newcastle, Wyoming, spent last week visiting Jack and Beth Seator.

Eldon and Jackie Norman are very pleased over the arrival of another grandchild. Andrew Scott Norman was born on May 21, 1989, at Montcalm Community Hospital to Scott and Mika Norman of Romeo. Besides Eldon and Jackie, Chet and Jeanine Fijolek of Brevard, North Carolina, are grandparents. Jackie spent a week with Scott and Mika helping to care for two-

year-old Amie and welcoming Andrew home. Lydia Rose Karbum, infant daughter of Rosie and Curt Karbum, was christened at St. Patrick's Church on

St. Patrick's Church in Union Lake on Sunday, May 21, 1989. Barbara Hoffman of Traverse City and John Hoffman of Harbor Springs were godparents. Dr. and Mrs. Ralph Hoffman spent the weekend in Union Lake to attend their granddaughter's christening.

Dena Bovee and Bruce Goll of Worthington, Ohio, visited her parents, Bob and Fay Bovee, over the long holiday weekend, bringing much needed rain with them.

Bill and Lee Meagher of Bay City spent last weekend at their cottage on the AuSable.

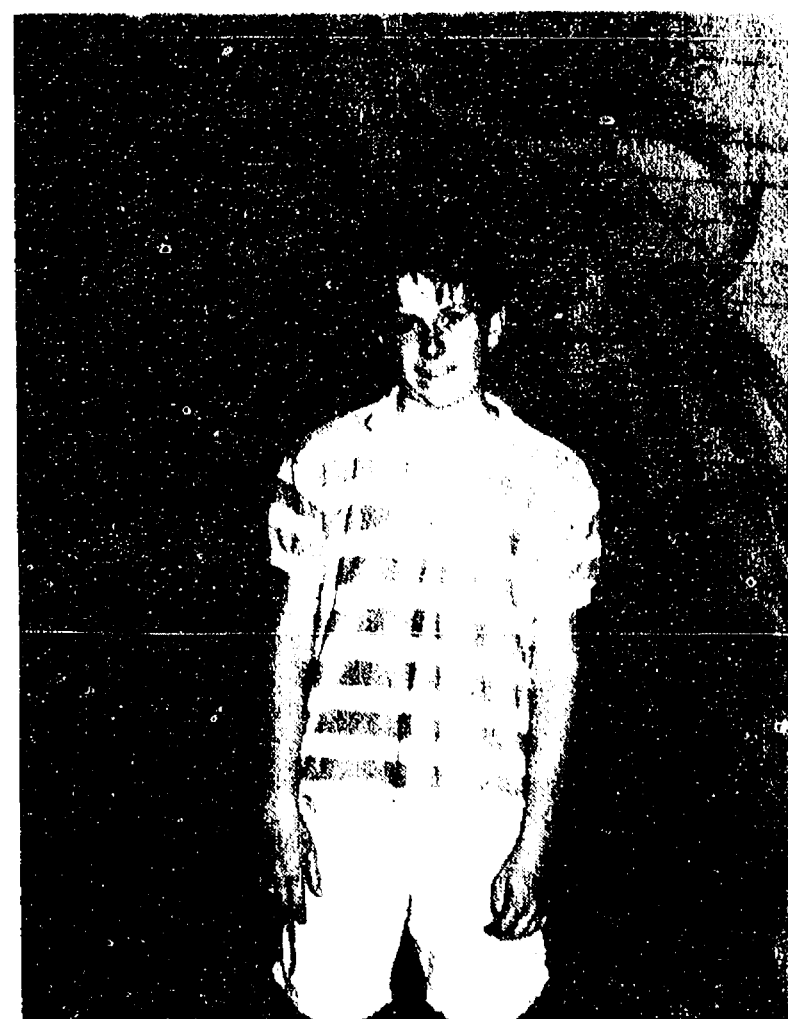

Mary Jane Knibbs' family were all home for the holiday weekend: Dr. Linda Knibbs from Springfield, Illinois, Holly and Gary Dockham from Plattsburgh, New Hampshire, Nancy and Michael Elliott and son from Ann Arbor, and Jim and Cindy Knibbs and daughters from Petoskey. They came for the Richard Joseph wedding in Charlevoix on Saturday.

Evelyn and Ab Sager have returned from Florida to their home on the mainstream. Their son Ralph from Walled Lake and their daughter and husband, Shirley and Len Kraatz, from Saginaw, welcomed them back over the Memorial Day weekend. Ab had his first hole-in-one on May 18 at the 166-yard

16th hole of Sunny Breeze Palms Golf Course at Arcadia, Florida. It was a long time coming as he played his first golf in 1924.

ALMOST MISSED - Lindsay Brinks, shown with Dale Nicholas, Grayling Middle School principal, was also recognized as a May student of the month.

GREAT JOB - Grayling Middle School 8th grade student, Josh Wyss, received the third highest math score in the C.O.O.R. Intermediate School District's Midwest Talent Search. Josh's score was better than 95% of those students tested, and would put him nearly into the upper quarter of college bound seniors. Josh is the son of David and Colleen Wyss.

SPORTS FANS!

Bet You Didn't Know

Brought To You By Tim Hart Sales Representative

Here's an amazing oddity... There was once a big league baseball player who hit a home run EVERY time he got a hit one season!... He was Clem Labine, a Dodger pitcher... In 1955, Labine made only 3 hits all season—but every one of those hits was a homer!

One of the most incredible sports feats of all-time was achieved by weightlifting champion Paul Anderson... He set a world record in 1957 by lifting 6,270 POUNDS... That's the greatest weight ever lifted by a human being.

Believe it or not, a big league baseball player once did the impossible... he stole first base!... Germany Schoefer of Detroit did it in 1908 against Cleveland... Schoefer, after having stolen second base, tried to distract the opposing catcher on the next pitch by running back to first base... It was successful, the runner on third base could score... It worked as Schoefer ran from second back to first, slid safely, and thus, stole first base... The catcher threw to first while the runner on third scored... That play was legal then, but isn't today.

Georgia-Pacific Reports Results of Independent Environmental Assessment

Dear Fellow Community Members:

Georgia-Pacific Corp. voluntarily retained Swanson Environmental Inc. (SEI), a company with extensive scientific and engineering expertise in evaluating the effects of today's technology on the environment, to conduct an environmental assessment to address any potential impacts of constructing and operating a formaldehyde manufacturing facility adjacent to our resin plant in Beaver Creek Township. If the state had required an assessment, Georgia-Pacific still would be responsible for payment to the environmental specialists conducting the study.

Many of the questions that reflect the community's concern about maintaining our high-quality environment have been addressed in Swanson's assessment. Following are questions I have been asked with some answers taken from that independent assessment. Printed copies of this document will be available to community members within the next few weeks.

Please call me at the resin plant if you have any additional questions.

Sincerely,
Joe Newman, Manager
Beaver Creek Resin Plant

What is the environmental impact of the proposed expansion?

It is SEI's opinion that the potential impact of Georgia-Pacific's proposed construction and operation of a formaldehyde facility adjacent to the company's resin plant will be minimal and should not result in any significant deterioration to the natural or social environment of the area.

How was environmental quality measured?

SEI determined the existing environmental quality of the site and identified the potential impact of the proposed project on the social environment and the natural environment, including air, land, water, flora and fauna. This included establishing present conditions for noise and groundwater.

Will Georgia-Pacific respond to air emission concerns expressed by the community?

Yes. Although the original permit application submitted by Georgia-Pacific would have restricted formaldehyde emissions to a level significantly lower than what is considered safe, Georgia-Pacific now is making design and equipment modifications and revising its air permit application, so the company will not need to request an increase in formaldehyde emissions over the existing permitted level for the resin facility alone.

Because community members have acknowledged that the current emission level at the resin plant is very low and safe, Georgia-Pacific is going beyond normal control measures to maintain the existing permitted level. The original permit, applicable now for resin and formaldehyde manufacturing, specifies a formaldehyde emission level of .045 pounds, or 7/10th of one ounce an hour, less than the traffic emissions on a typical one-mile stretch of I-75 running through Grayling. Combined, the formaldehyde and resin manufacturing facilities will not exceed this low emission level.

Emissions from both processes will be well below levels set by the United States Environmental Protection Agency and the Michigan Department of Natural Resources. Also, the original design would have restricted formaldehyde emissions inside the facility to 10 times less and outside the facility to 7,000 times less than the safe levels set by the Occupational Safety and Health Administration. With the revised plan, these levels will be even lower. The extensive emission control system will eliminate more than 99.5 percent of all emissions. There is no demonstrated technology in the industry with better control efficiency.

When will construction begin and when will the new facility start operating?

The conceptual engineering for the project started in January 1989. Construction is expected to begin in August 1989 with start-up targeted for December 1990. An average of 75 people will be employed during the construction phase of the project.

How noisy will the new facility be?

The entire facility will be enclosed. This, together with a minimum 100- to 250-foot buffer zone around the plant will block or minimize any noise.

Will the proposed plant contaminate the water?

No. SEI monitored groundwater quality, determined groundwater levels and flow directions, and evaluated materials that could contribute to subsurface pollution. These measures were undertaken to ascertain the characteristics of the site and to protect the groundwater resource against pollution. Water left from the manufacturing process will be treated and recycled, not discharged. The resin plant has not discharged any process water since it began operation, nor will the formaldehyde facility.

Even though on-site formaldehyde production will decrease railroad and truck traffic, won't other chemicals still have to be shipped to the new facility?

Instead of receiving 10 railcars of formaldehyde each week, the plant will receive approximately half as many cars of methanol. In addition, small quantities of catalysts will be delivered in drums two to three times a year.

Will Georgia-Pacific develop a pollution incident prevention plan?

Yes. Although not required by Michigan regulations for this type of facility, Georgia-Pacific will submit an emergency response document to the Michigan Department of Natural Resources. The purpose of the plan is to describe the equipment and procedures used to prevent and to contain or clean up any spills at the facility should they occur.

The company will install extensive process control and backup containment systems to ensure safe operating conditions. Georgia-Pacific also will maintain in-house accident response plans and will fully cooperate with and support response procedures of local and state agencies. In fact, the Beaver Creek Fire Department has determined preliminarily that any likely accident situation can be handled with the Department's existing equipment and procedures. Local emergency capabilities, together with G-P support, will provide fast and effective response to any accident situation.

SEI reported that any accidental release of either raw materials or finished product would be small, easily contained and rapidly cleaned up; therefore, potential impacts as a result of accidental releases are minimal.

How much formaldehyde will the new facility produce?

Georgia-Pacific's proposed facility will be capable of producing an average of 140 million pounds of formaldehyde (on a 37 percent basis, 100 million pounds at 50 percent) and urea formaldehyde concentrate annually, with a maximum production capacity of 170 million for short periods of time. The resin plant will utilize virtually all of this production, and the amount of formaldehyde manufactured will be matched to the resin plant's needs. Currently, about 100 million pounds of formaldehyde are being shipped in each year, with the resin plant operating at 75 percent of capacity.

Will the area around the plant smell like formaldehyde?

No. Because of the proposed facility's extensive emission control equipment, the maximum level of formaldehyde outside the facility is more than 300 times lower than the detectable odor level, which is documented by the American Society of Testing Materials, the world's largest source of voluntary consensus standards.

The Bible Speaks

From Calvary Baptist Church

The Gospel of John

Part #80
Fruit Bearing Fellowship
Jesus Christ stressed in John 15:4-8 the importance of abiding in Him to remain fruitful as Christians. "Abide in me, and I in you. As the branch cannot bear fruit of itself, except it abide in the vine; no more can ye, except ye abide in me." (John 15:4). One out of fellowship with Jesus Christ cannot bear spiritual fruit. "I am the vine, ye are the branches: He that abideth in me, and I in him, the same bringeth forth much fruit: for without me ye can do nothing." (John 15:15). The difference between absence and abundance of fruit in the life of a Christian is determined by our fellowship with Christ.

Failure to bear fruit marks a Christian as a hypocrite, and brings severe judgment upon him from those around him. "If a man abide not in me, he is cast forth as a branch, and is withered; and men gather them, and cast them into the fire, and they are burned." (John 15:6). People hate hypocrisy. The news media has been crucifying the names and ministries of some of the most visible television preachers because of their sinful fruit. The fruit spoken of in this section is the character and conduct of Jesus Christ reproached within our lives. Our fruit is not just what we profess to be, but rather what we practice every day in our daily lives.

Abiding in Christ in continuous fellowship not only produces Christian fruit in our

lives, it also assures us we can pray the prayer of faith. "If ye abide in me, and my words abide in you, ye shall ask what ye will, and it shall be done unto you." (John 15:7). As John also said in 1 John 3:22: "And whatsoever we ask, we receive of him, because we keep his commandments, and do those things that are pleasing in his sight." The only prayer one out of fellowship with Christ can expect answered is the prayer of repentance.

Continuous fellowship with Christ produces fruit in our lives which also shows we are Christ's disciples, and glorifies our heavenly Father. "Herein is my Father glorified, that ye bear much fruit; so shall ye be my disciples." (John 15:8). Praise of the Father is one of our greatest privileges and opportunities. This should be the highest goal for the Christian. "Whether therefore ye eat, or drink, or whatsoever ye do, do all to the glory of God." (1 Cor. 10:31).

Union and communion with Jesus Christ enables us to bear fruit for Him. That fruit is the character and conduct of our Lord Jesus Christ being carried out in our daily lives. (Hear "The Bible Speaks" at 12:15 p.m. Tuesday on WQON 100 FM).

City Council Proceedings

Regular meeting of the City Council held May 8, 1989. Meeting called to order by Mayor Golnick at 7:30 p.m. Members present: Golnick, White, Latuszek, Thompson. Members absent: Sloan.

Also in attendance: Jerry W. Morford, City Manager; Marilyn Hanson, City Treasurer; Terry Dickinson, Judy Weaver Dickinson, Susan Bateson, Frank Bateson, Peter W. Stephan, Leonard Graf, Roy Knight Jr., A. Donald Sorenson, Allen Schreiner, Dick Wieber, Ernest Dawson, Nelson Miles.

Moved by White, supported by Latuszek that the minutes of the meeting of April 24, 1989 and Special Meeting of May 1, 1989 be approved as presented. Ayes: 4, Nays: 0, Absent: 1, motion carried.

Citizens who wish to speak.
Mr. Miles spoke on behalf of Susan Bateson regarding Lot 10. Problems being landlocked. Question is whether the alley is owned by the City. He is requesting access to the Lot 10 property. Mr. Miles would like Council to be aware of the problem. A lengthy discussion was held.

Communications were received and noted.
M.M.L. Legislative Bulletins.
Fire Department Monthly Report for April 1989.
Police Department Monthly Report for April 1989.
Letter from A. Stancil, Grayling Township Supervisor re: Improvements of South Airport Road. Mr. Morford will pursue. Crawford-Ortogo Landfill increase in dump fees by \$1.00 per yard as of 5-15-89.

Old Business.
Mayor Golnick opened the Public Hearing on increasing property taxes at 8:00 p.m. Ms. Latuszek asked about Special Assessment as related to Budget. Public Hearing closed at 8:05 p.m.

Moved by Latuszek, supported by Thompson to hold a Special Meeting for a 2nd Public Hearing for the 1989-90 Budget on Monday, May 22, 1989 at 7:30 p.m. in the Council Room. Ayes: 4, Nays: 0, Absent: 1, motion carried.

Mr. Morford discussed with Council the Laura Smith property regarding possible rezoning to O.S. Mr. Morford would like to schedule a Public Hearing at a later date. Council agreed.

Mr. Morford presented City Council with proposed Ordinance 69-1 revisions. Council discussed various violation problems and details of the enforcement procedure. Mr. White was very concerned about the provision for removal of the prohibition of parking between the curb and sidewalk in light of the recent expense for providing grass areas as part of our street construction program.

Moved by Golnick, supported by Thompson to adopt revised Ordinance No. 69-1 as presented and make it effective upon publication with the Minutes (see attached). Ayes: 3, Nays: 1 (White), Absent: 1, motion carried.

New Business.
The school millage committee report was presented by Paul Lef.

Mr. Morford presented a pay request from Corvette Construction in the amount of \$78,369.75 for the Michigan Avenue Construction completed to May 2, 1989. Both he and Engineer Leonard Graf recommended approval of the request.

DILIGENT SEARCH

We all know the shock of losing something we value. A misplaced book or valuable papers, even a treasured heirloom, can frustrate us for hours or even days. Diligent search is the key to finding what we've lost, but the memory of our exasperation lingers.

Yet while the loss of something material is easily grasped, many of us never realize that we may be missing important spiritual blessings like the secret of a richer, more satisfying life.

This search need not take long, though. Millions find the path that fulfills every week in their place of worship.

So can you?

Doodles from the Tall Timber

By Wendell L. Hoover
Hartwick Pines Interpreter

Sometime recently someone entered the enclosure where the steam engine and sawmill is located and stole the brass whistle off the Port Huron steam tractor.

Whoever the thief was, that person did more than steal a brass whistle for the dollars it will bring or for its decorative value in a den or behind a bar somewhere. What that person stole was the thrill experienced by literally hundreds of youngsters who made

it sing above the sound of a 76 year old steam tractor. What that person stole was the sparkle in those kids eyes and the ever widening smiles. What that person stole was the call that thousands of visitors have heard to announce the start of the sawmill. That person stole the sound that will not be heard by the thousands who will come this summer.

Each steam engine has a distinctive

operating sound that is accented by the sound of its own whistle. I do not know if the stolen whistle was the original or not, but it had its own unique sound. Now that sound is gone. The whistle will not be replaced by the park, but by the Friends group. Our hope here is that the stolen whistle will be returned or that we can locate another whistle before Old Time Days on June 17 and 18.

Recipes

By Phyllis Brummer

Good news for egg-lovers: The American Heart Association now says you may have four eggs per week instead of three and still stay on a low-cholesterol diet. The reason for the change is that egg yolks are lower in cholesterol than previously believed. Eggs are a protein-perfect food. In addition they contain amino acids, riboflavin, niacin, thiamin, and vitamins A, B, and D, along with minerals, iron and phosphorus. The size or grade of the egg, or the color of the shell, does not affect the nutrition in the egg. Pound for pound, eggs are a much better buy than meat and can be served at any meal. If you want to serve scrambled eggs to several people who may not arrive at the table at the same time, this recipe not only makes creamy eggs, but they can be held for an hour or more without losing the fluffy texture.

Foolproof Scrambled Eggs

8 eggs

1/2 c. milk

1/4 c. melted butter, cooled to room temperature

Salt and pepper to taste

Break eggs into pottery or glass bowl. Beat at low speed until well mixed. Add milk and seasonings and continue to beat while adding the butter very slowly. Butter the bottom and sides of the top of a double boiler. Place over barely simmering water, add eggs, cover, and allow to cook 10 minutes. Turn congealed portion of eggs to the middle of the pan and continue cooking until all of eggs are in large congealed pieces. Keep warm until ready to serve.

Three-minute Eggs with Saltines

For each person to be served, place a custard cup in a 250° oven. When warm, place a tablespoon of butter in the bottom of the cup. Place two eggs per person in a pan of cool water with about 1/2 inch water over the top of the eggs. Heat until water begins to boil, turn heat to simmer, and cook for exactly three minutes. Plunge eggs briefly

into cold water to stop the cooking. Crumble 3 crackers into each cup and break two of the eggs over the crumbs. Mix well and season to taste.

Egg Ball Soup

1 48 oz. can chicken broth (or 2 qts. homemade)

1 - 4 oz. can chicken (or 1 c. cooked chicken)

4 hard-cooked eggs

2 raw eggs

1/4 tsp. salt

1/8 tsp. pepper

1/2 c. flour

Combine chicken and broth in saucepan. Chop hard-cooked eggs finely. Beat raw eggs until frothy and lemon-colored. Add chopped eggs, salt, and pepper. Using the large end of a melon baller, form into balls and roll in flour to coat. Drop into simmering broth, cover, and simmer 8-10 minutes until egg balls are firm and slightly puffed up.

Egg and Crab Bake

6 eggs

2 - 8 oz. pkg. frozen crab meat diced in 1/4" cubes (or 2 c. diced shrimp)

1 c. celery in 1/4" cubes

1 c. grated sharp Cheddar cheese

1 c. mayonnaise

1/4 tsp. salt

1/8 tsp. pepper

1 tbsp. Worcestershire sauce

2 tbsp. sherry (optional)

1 c. soft bread crumbs

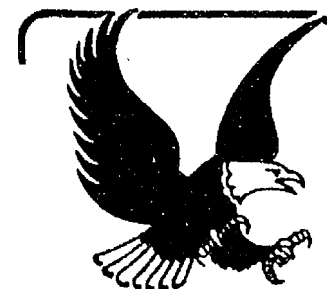

2 tbsp. melted butter

Beat eggs until light and fluffy. Add all but last two ingredients. Pour into buttered casserole. Mix crumbs and butter and sprinkle over eggs. Bake at 325° for 50 minutes or until a knife comes out clean when inserted in the middle of the dish. Serves 6.

Tips on separating eggs: Eggs separate more easily when very cold. The yolk is always located near the large end of the egg. After breaking the shell against the side of the bowl, hold the large end to receive the yolk first and the white will slip easily out of the small end.

Resource Review

By Bruce Patrick
Conservation Officer

The Attorney General's Office, in response to a request from a sportsmen's group, has recently issued an opinion with wide ranging effect. The opinion (No. 6568 dated 2/18/89) states that: "It is my opinion ...that any person who pursues a bear with dogs must have a valid bear hunting license in his or her possession, regardless of whether the individual is carrying a firearm, and re-

gardless of whether the person intends to kill a bear or is merely engaged in the training of dogs."

Because of the wording and definition present in both the Hunting and Fishing License Act (Act 86 of 1980) and the Wildlife Conservation Act (Act 266 of 1988) this opinion is applicable to all species of wildlife which are pursued by dogs.

This is a dramatic change in interpretation which has taken

many people by surprise. Enforcement policy by the Department of Natural Resources will be liberal during a year long transition stage. However, effective January 1, 1990, the appropriate license will be required at all times by those persons actively involved in pursuing a species with dogs, including training.

For most people, this will only require that they buy their license a little earlier than normal.

Verse or Worse

By Joseph D. Murphy

Put Salt on Their Tail

*Mother's old canary bird had died
He had liked to sing his happy song
We all missed his happy thrilling
He had just seemed to belong.*

*We had some finches around our house
They looked like canary birds to me
If I could catch one and give it to Mother
Oh! How happy she would be.*

*I was only four so I asked for advice
On how it could be done
Everyone told me the same story
I didn't know it was in fun.*

*They said if I put salt on their tail
They would be as tame as they could be
I took it to be the gospel truth
Though how to do it puzzled me.*

*I watched those birds with an eagle eye
When they came around each day
I saw they always sat on one limb
At last I had found a way.*

*With a little salt from Mother's kitchen
I rigged my trap on the branch above
All I had to do was pull a string to spill the salt
And those birds would be full of love.*

*The finches came and I sprung my trap
Through a stream of salt they flew away
I knew then they had lied to me
I was a mad little kid that day.*

Going For The Gold

Grayling native Brett Stockton reported to the Olympic training camp in Melbourne, Fla., on Feb. 26 to train in Kayak racing until May 1st. Then he will aim to compete in the Olympic Sports Festival Trials, European Team Trials, Olympic Sports Festival, and National Kayak Championship, all during the summer of 1989.

Although the 1992 Olympics are 3 years away, the road to the gold is a long one for Stockton and other hopefuls.

America is one of the few countries which doesn't subsidize its Olympic athletes. Stockton and others rely on contributions, mainly from their hometown areas.

You can help Brett represent the U.S. by sending a donation, even small amounts are appreciated, to the

NEW CEMETERY MARKERS — Two Barre Granite signs have been placed at the main cemetery gates with the name 'Elmwood Cemetery' carved into them. The markers are a gift from Hilda Peterson Short in memory of her parents, Margrethe and Andrew Peterson.

Thank You

We would like to thank everyone who helped us through Scott's recent ordeal. He is home now and thanks to all the wonderful prayers sent up for him and great medical care, we expect Scott to have a complete recovery. Special thanks to the Frederic Ambulance crew, Mercy Emergency room staff, Munson Medical Center staff and our wonderful friends, David and Ann Stephenson, Marie Laurie and Hazel Koernke, to all who sent cards, messages, gifts and visited or called, you'll never know how your support and concern sustained and encouraged us. Bless all of you!

ENGAGEMENT — Ron and Sandie Kea of Grayling, announce the engagement of their daughter, Vickie, to Jeff Conrad, son of Jan and Joe Conrad of Midland. They will be united on June 24th, 1989.

Keeping Healthy

Lose Weight Sensibly
Think nutrition, not calories! Surprisingly, a candy bar may contain the same number of calories as a salad, but the salad contains vitamins, minerals and fiber—not sugar and fats.
Cut every ounce of fat off of meat and remove the skin from your poultry. This will lower your fat and cholesterol intake.
Lightly steam your vegetables instead of boiling them. This helps preserve nutrients and the fiber content.
Drink eight glasses of water a day. Many dieters assume that drinking water contributes to water weight, but the opposite is true. The body retains water when it's not getting enough of it. Water contains nutrients and helps wash away impurities.
Supplement your diet with increased activity. End your affair with your car—walk right out!

MYSTERY CAR WINNER — Pictured is John Webster accepting the keys to the mystery car from John Scheer and Arnold Bader, treasurer of the Save Hanson Hills committee. The mystery car was raffled off at the Save Hanson Hills Vegas Nite and was donated by Scheer Motors.

Legal Notice

The Grayling State Bank has announced that they will be closing their office at Frederic, Michigan as of the close of business on May 31, 1989.

This decision comes after careful study of the branch banking activity. By streamlining operations to reduce overall costs, the Grayling State Bank will be able to offer their customers a better combination of quality service and pricing. All Frederic Branch accounts are designed to enable the customer to transact business at any branch of the Grayling State Bank. The locations are: 305 Michigan Ave., and 175 Business Loop, Grayling, Michigan.

The Grayling State Bank will continue to be committed to the financial future of the residents of the Frederic area.

The Bank premises will be donated to the Township of Frederic after the closing date 11-18-25-1

Local Cooking Featured In Capitol Lawn Event

Sherry Haag, Project Manager, and Bonita Chesner, Head Cook of Crawford County Commission on Aging, will be participating May 31, as part of "Dining Senior Style-Adventures In Eating!" an event to be held on the east lawn of the State Capitol Building. This event brings together some of the best cooks and meals currently available to older Michiganders through the state's community nutrition services program.

Designed to raise public consciousness about the meals program and to thank the Michigan Legislature for their support of the meals program, "Dining Senior Style-Adventures In Eating!" will serve approximately 1,000 meals on the 31st, to

legislators and their staff; meals identical to those any senior can find in their local area. According to federal and state regulations, each meal must contain at least one-third of the required daily allotments (RDA's) for proper nutrition. The meals program, which is over 15 years old, has served approximately 97 million meals to older adults in Michigan.

A varied menu, including several ethnic dishes, will be served to those attending.

The meals program has two components. Congregate meals are served at a meal site and may be accompanied by other services and activities. The fellowship and friendship experienced by those who receive meals at one of the 600 sites throughout Michigan, it is often reported,

is just as important as the meals. For those who are unable to prepare their own meals, for a variety of reasons, there is the home-delivered meals program.

Delivering a hot, balanced meal to a person's home, this program often serves as a lifeline for those who wish to prevent being or are at risk of being placed inappropriately or prematurely in a long-term-care institution.

During fiscal year 1988 (October 1, 1987-September 30, 1988) a total of 13,420 home delivered meals and a total of 9564 congregate meals were served locally. Region IX includes 12 counties in northern Michigan.

The senior meals program is funded by the state and federal governments through the Michigan Commission and Office of Services to the Aging.

From NFL Locker Rooms To Scotland's Quiet Hills

SPORTS MEDICINE — Her knowledge of sports injuries has sent Wendy Gee, a 1975 GHS graduate, from NFL locker-rooms to treating pro tennis players.

By Tom Logan

From treating injuries for NFL players to managing a Navy support unit in the quiet hills of Scotland, Lt. Wendy A. Gee is enjoying the directions her Navy career has led her.

Gee, a GHS graduate, currently manages the personnel support detachment at the Naval Security Group Installation in Edzell, Scotland.

There's no trace of Edzell on many maps of Scotland, but the naval station lies in the rolling hills of the Grampian Mountains, 40 miles south of Aberdeen.

The naval station takes its name from the village which is approximately three miles from the base.

Edzell looks like a rural-American, 1950s, "one-horse" town with a stop light in its corner. Yet, Gee is happy here.

"It's great living here," says the 1975 Grayling High School graduate. "I have a good relationship with the Scots. They're a warm and friendly people, and they have a great interest in learning American slang. I contribute what I know whenever called upon at pubs or other informal gatherings."

Gee joined the Navy after earning a bachelor's degree in sports medicine at the University of Michigan (Ann Arbor) and a master's degree at the University of Arizona (Tucson).

"I wanted to become a doctor," she recalls, "but after my first class in college chemistry, I realized that career path might

be too strenuous for me. I had always had a keen interest in sports, so I studied sports medicine."

According to Gee, examining and treating male athletes as a trainer in their locker rooms was sometimes tense but never intimidating.

"I can recall a number of occasions when male athletes were reluctant to let me examine them because I was a woman," she says.

"Usually, after some good-natured verbal banter, they loosened up and began to realize I really could help repair their injuries. I earned a reputation among them as a competent, professional trainer. Injured athletes are looking for competency. It doesn't matter if you're male or female."

During summer student internships, Gee worked with a number of professional sports teams, including the San Francisco Forty-Niners and the Virginia Slims Tennis Association.

"I met a lot of professional female tennis players working with the Slims," she recalls. "I had dinner once with Martina Navratilova. I have to admit I was a little 'star struck' working with an athlete of her caliber."

When Gee completed her master's degree in sports medicine, she had plenty of job offers.

"Oh, I had job offers all right, but at 22, I was overwhelmed by the responsibility I was being offered," she admits. "I needed time to grow up a little and mature, that's why I joined the Navy."

"Originally, I planned to spend just a few years in the Navy and then go back to sports medicine, but I discovered I was having too much fun, and I don't want to leave yet."

"I'd like to command a naval shore facility some day," she says. "I guess that makes me a Navy careerist."

Gee says she's aware that a naval career will limit her choices for a mate.

"It would probably be wise to marry another military career man," she says. "I don't want to marry a sea sailor because he'd be gone all the time. Maybe an aviator would fit the bill," she says, laughing.

"I'm looking for a liberated male of the 80s who won't make me sacrifice my career for his. I know he exists out there somewhere, and I'll find him."

\$1000 FOR TROUT — John Alef presents a check for \$1000 from the Grayling Booster Club to Bob Smock, of the Grayling Fish Hatchery. The hatchery uses the money to buy trout to put into the kid's fishing section on the East Branch.

SUMMER PROGRAM — John Alef presents a \$2,500 check from the Grayling Youth Booster Club to R.J. Hannan for summer recreation activities operated by the community school program. The Kiwanis Club, Lions Club, and Rotary also donated to the summer program.

Medical Transcriptionists Discuss Echocardiograms

Medical transcriptionists from northern Michigan hospitals and clinics met at Mercy Hospital/Grayling in May for a regular chapter meeting.

During the meeting Victor Mejia, M.D., spoke on echocardiograms, and K. Rama-

swamy, M.D. discussed what the future holds in the area of surgery. Both physicians are on the active medical staff at Mercy Hospital.

Presentations have also been made by Mercy physicians Pat McNamara, D.O., on chest x-rays; William George, M.D. on diabetes and the older patient; Terry Howell, M.D., on EKGs and the heart; and Debra Larson, Director of Long Term Care, speaking on continuity of care after hospitalization.

Three medical transcriptionists are employed at Mercy Hospital. Betty Corwin, Brenda Turner and Marlene Dinsmore.

Transcribed medical reports are crucial to health care communication. They are more legible than handwritten notes and more permanent than oral reports. These reports summarize and organize information which is otherwise either missing or scattered throughout the record. They are prepared by medical language and English grammar specialists - medical transcriptionists.

Thank You

Our thanks to the Emergency Room doctors and staff, Dr. William McNamara, and the nursing staff at Mercy Hospital for the excellent care given to Emily during her recent hospital stay. Also, thanks to Rev. Jeff Regan and family and friends for their support.

Sincerely,
Joe, Terri,
Meg & Emily Wakeley
